

## About Rebound:

Rebound maintains a vision to eliminate reliance on the juvenile justice systems to meet the needs of Black youth; and a commitment to leading the way in the innovation and provision of holistic, community, centered, education, advocacy, and rehabilitation services for this population as means to bringing this vision about in North Minneapolis.

Youth accomplish a great deal while in residential programs, but research shows that without support much of that success will be undone. Rebound prides itself on staying connected with the amazing young people who come through our residential programs, and being available as a place they can return to for support. The Aftercare program formalizes this support in hopes of helping our youth retain gains made while in placement and achieve their full potential!
